THE FAST, FLEXIBLE, LOW-COST PATH TO A RESPONSIVE WEBSITE

Building a website that's optimized for viewing on a wide range of browsers and mobile devices doesn't have to be expensive and time-consuming. Cathexis Quicksite is a turnkey website package that makes it easy for nonprofits to have a mobile-friendly website up and running quickly for one low price.

What's Included:

- Design recommendations based on WordPress themes
- 8 hours of design theme customization
- 30 content pages (content provided by your organization)
- 2 rounds of reviews and edits
- Testing of site navigation and usability on major web browsers

- Implementation of web analytics and search engine optimization
- Website hosting recommendations and coordination
- Coordination of DNS settings at go-live
- Optional custom design work available
- Training to ensure staff can create and maintain content

- **Fast, professional design and implementation when you need to be up and running quickly**

- **Turnkey package with everything you need for a responsive website**

- **Built on** WORDPRESS

ONE LOW PRICE

| Hundreds of design templates to choose from | Tens of thousands of plug-ins and themes for a grow-with-you site | Requires no licensing fees— keeps site maintenance costs low |
