EXPAND YOUR DRIVES FOR GOODS AND SERVICES WITH THE POWER OF PEER-TO-PEER
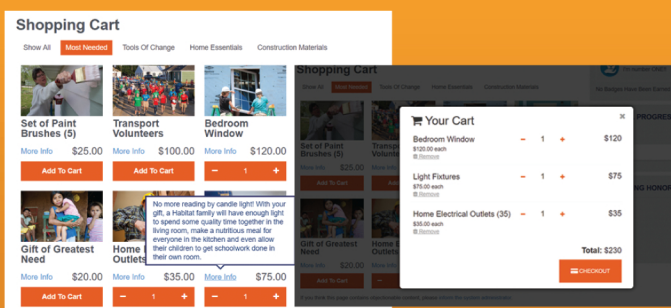

With virtual drives for goods and services, your organization can use the power of the peer-to-peer model to extend your fundraising reach by tapping into the personal networks of your strongest supporters. The Cathexis Partners team can get your organization up and running, quickly and affordably, with a virtual drive site powered by TeamRaiser.

What's Included:

- TeamRaiser peer-to-peer fundraising platform setup and training.

- Implementation of a peer-to-peer fundraising virtual drive site based on a site wrapper* template—all you need to do is provide branding (your logo, images, colors) and text.

- Site incorporates peer-to-peer fundraising best practices, including:
  - Responsive registration and donation forms
  - Multiple registration types and upsells
  - Fundraising milestones and award badges
  - Social networking integration

- Documentation and walk-through of your new site so you can easily maintain and update the site now and for future drives.

One Low Price: $4,500

*Site wrapper includes coding for site framework. We also can provide custom graphic design services for a low hourly rate.

Virtual Shopping Cart Option: $3,000

Add a virtual shopping cart to give donors examples of how their donation can translate into goods and services, such as a new window or volunteer transportation. Tying dollars to something real is more compelling than simply asking for a specified amount of money.
